Superior Restoration & Vapor Blasting System

- Vapor or dry blasting and cleaning on demand
- Runs all types of media and abrasives
- Lightweight, portable, rugged design
- Simple to use and maintain
- All-in-one versatility: From automotive remanufacturing to historical preservation and everything in between, the ECO-100 is gentle enough to remove ink from a business card but strong enough to strip the most difficult coatings
- Made right here in U.S.A.!

Technical Specifications

Dimensions	15"L x 23"W x 42"H
Dry Weight	115 lbs
Working Pressure Range	3-125 psi
Minimum Air Volume	60+ CFM
Air Dryer Required?	Yes <i>ECO-Aire System sold separately</i>
Blast Hose	1/2" by 50' long with #3 or #4 Nozzle
Control Handle	Pneumatic
Wheels	Solid flat-free design
Vessel Capacity	1.0 cubic foot (50 lbs of media)
Water Consumption	10-15 gallons per hour
Vessel Coating	2-stage crosslinked powder coat

Built-in Water Pump with easy water connection hook-up

Enables vapor blasting wherever needed, even remote locations. Can also run rust inhibitor solution.

Model Features

	ECO-100 ELITE	ECO-100 PRO
Pressure Hold System	<input checked="" type="checkbox"/>	
Pressure Release System		<input checked="" type="checkbox"/>
TeraValve XL Media Flow Control	<input checked="" type="checkbox"/>	
Plunger Valve Media Flow Control		<input checked="" type="checkbox"/>
1" Hose Upgrade Option	<input checked="" type="checkbox"/>	
Vapor Flex Water Collar	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Dry Blasting Capability	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Vapor Blasting Capability	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Built-in Water Pump	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

ACCESSORIES / MEDIA / AIR DRYERS

Accessories

Double Venturi Nozzle

This nozzle increases spray pattern.

Stainless Steel Fan Nozzle

Wide, uniform pattern ensures gentle cleaning with high production rates. (For soft media use only)

Precise-Flex Nozzle

Pinpoint stem nozzles available in Straight, 45°, 90° styles - great for detailed work

Banana Nozzle

Use this 40° angled nozzle for hard to reach areas

Blast Hose Extension

Available in 25' & 50' lengths

Suggested Medias

BAKING SODA

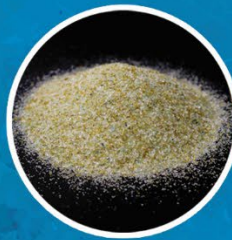

CRUSHED LIMESTONE

WALNUT SHELLS

CRUSHED GLASS

JETMAG

GARNET

SOFT

HARD

ECO-Aire Dryers

Clean, dry compressed air is essential when performing any kind of cleaning or blasting operation.

All ECO-Aire® models supply clean, dry air to your pressure vessel or dry ice machine. We offer different sized units with either 12V electric or pneumatic power options. We build these systems ourselves using high quality, industrial grade components.

Three different sizes to choose from means there is an ECO-Aire® Dryer System for everyone.

ECOFLEX® TRAILER SYSTEMS - GO ANYWHERE!

ECOFLEX 92-100 TOW BEHIND SYSTEM

- 10' x 5' aluminum trailer
- 92 CFM compressor
- Bi-fold ramp
- ECO-100 ELITE
- Built-in ECO-Aire Mini
- Portable 25 gallon water tank
- Free digital marketing support

BE YOUR OWN BOSS!
